

February 15, 1974

PRESIDENT: Senator Carpenter.

SENATOR CARPENTER: I would hope that the Senator would have no objection that we finish LB997 before we get into.....

PRESIDENT: That's understood. We'll finish LB997, that's unfinished business. That has a higher priority.

SENATOR CARPENTER: In other words, LB997 will be heard against his motion.

PRESIDENT: Senator Lewis, do you concur?

SENATOR LEWIS: I think they're definitely related but if there's subsequence on LB597 that affect LB997, that can be taken care of on Select File. That's fine with me.

SENATOR CARPENTER: I have no objection in any case, it's following LB997. If it affects it, why, of course, it can affect it as it goes along the board. I'm trying to preclude his position.

SENATOR LEWIS: That's fine with me, Senator.

PRESIDENT: Senator Lewis concurs then. Give me that number again, please, Senator Lewis. I never did get it written down. 971? 951?

SENATOR LEWIS: 597.

PRESIDENT: Thank you. Senator Lewis is asking now for unanimous consent to place LB597 as a first order of business after LB997 on Monday. Are there objections to that placement? Hearing none, so ordered then. It'll be done. Do we have other motions then on the desk there, any other business? Thank you, we'll move the General File consideration of LB712, Stromer's bill.

CLERK: Read LB712. There are committee amendments by Fred Carstens Committee. Is somebody going to handle that for him?

PRESIDENT: Senator Duis.

SENATOR DUIS: Mr. President, I move the adoption of the committee amendments. The committee amendments are a part of the bill that says that the, it shall be a psychologist as qualified to practical clinical psychologist and that is the committee amendment.

PRESIDENT: Any further discussion of the committee amendment? Senator Stromer, any input? We're talking about the committee amendment only.

SENATOR STROMER: Mr. President, I would just add that this took away the objection of the insurance company that came to the committee to testify opposing the bill. So we added this to further restrict to satisfy their particular question.

PRESIDENT: Is there any further discussion of the committee amendment? And the question is, shall the committee amendment be adopted. All those in favor, please say aye. Those opposed, say no. So ordered, committee amendments adopted. Senator Stromer, back to you then.

SENATOR STROMER: Mr. President, I would move that we advance LB712 to E & R initial as amended. This bill just simply adds psychologist to the area that we have added other people in the medical profession and after taking care of the amendment, I think there was some pretty complete agreement concerning this particular bill.
